

Info note

EDPB Plenary meeting, 14-15 May 2019

ITEM 6.2 - 15/05 – INFO NOTE – Access requests – Written state of play

I. Background

Some members asked for a state of play regarding the requests for access to documents received by the EDPB. At the February Plenary meeting, the Secretariat provided a written state of play of the requests for access to documents received.

Some members suggested that, for any future state of play, the SEC will also provide information about the outcome of those requests.

II. Current state of play

Until 26/04/2019, the EDPB has received in total 23 requests for access to documents. The document attached provides an overview of the requests, including a short description of the documents concerned and the type of reply given.

III. Discussion points

All documents submitted to the EDPB and all documents drafted in the context of its activities are subject to a possible access request. That does not mean that all documents are disclosed since exceptions may apply.

Request to the Plenary:

-) To take note of this information and state of play of the access requests
