Dear [REDACTED],

Thank you very much for your invitation here attached.

Unfortunately, due to prior commitments, Mr Schröder cannot attend your meeting.

We wish a lot of success for a fruitful event.

Best regards,

[REDACTED] *on behalf of mr Schröder*

APPLE INVITES YOU TO

MEET LIAM

PRESENTING AN INNOVATIVE RECYCLING SOLUTION
SUPPORT THE TRANSITION TO A CIRCULAR ECONOMY

Wednesday 29 June 2016 | 14.00-16.30
Hekven 6 | 4824 AE Breda | Netherlands

Innovation plays a key part in the transition towards a circular economy. To address resource challenges and create high-value added products, we need innovative technologies and processes.

Apple sees a huge opportunity to improve the way we reclaim finite resources. Existing recycling technologies often diminish the quality of materials and often diminish their quality. So we invented Liam, a line of robots that can disassemble high-quality components and reducing the need to mine more resources from the earth.

On 29 June, we will be delighted to give you an exclusive tour of Liam, hosted by [redacted] Int'l Affairs, followed by a discussion about circular economy and the role of innovative recycling technologies.

RSVP by 17 June to [redacted]@apple.com

This invitation is personal - if you would like to nominate a colleague to attend in your place, please contact [redacted]@apple.com)
