Dear Madam,

I thank you for your request of information dated 3 May 2019 concerning first, the number of staff in the Transparency Unit of DG MOVE (or the department dealing with access to EU documents requests) and second, the budget for the Transparency Unit (or the department dealing with access to EU documents requests).

I would like first to inform you that in DG MOVE there is no specific “Transparency Unit” dealing with the requests of access to documents. While Unit MOVE A4 is in charge of the coordination of the answers to be provided to the initial requests, all units of DG MOVE are involved in the specific requests depending on the subject concerned. Therefore, it is not possible to provide a single answer to your request. All officials in DG MOVE are likely to deal with requests of access to documents if they concern the subjects of their competence. In my Unit, there are 3 persons dealing with the coordination of the answers for the overall DG MOVE but they do not work full time on this subject since they have additional responsibilities.

As regards the second question related to the budget of the “Transparency Unit” (or the department dealing with access to EU documents requests), I do not have such information because the budget of the DG MOVE is not subdivided in individual budgets for each Unit concerned.

Sincerely Yours,

[REDACTED]
