### 1. Adoption of the agenda

The WPI adopted the agenda as set out in document CM 5125/1/19 REV 1, without any additional items.

### 2. Transparency items

- a) **Practices in Legislative Transparency during the Finland's Presidency of the Council of the European Union - report on the implementation of the pilot project**
- b) **Reflections on the outcome of the seminar on "The Future of EU Transparency" (Brussels, 24 September 2019)**

The Presidency presented an exhaustive overview of the implementation of its pilot project (14856/19, being submitted to Coreper) as well as the results of its initiatives which included increased public discussions of Council meetings, open and clear communication, transparency in lobbying of political decision makers and improved legislative transparency.

The Presidency also briefly reported on the transparency seminar held on 24 September 2019, organised with the University of Helsinki and hosted in the Council's premises (12876/19), that raised a great interest bringing all kind of stakeholders' profiles together (institutions, member states and civil society).

Most of the delegations that took the floor (DE, DK, FR, HR, NL, PL, SE and SI) pointed to the short timeframe for implementation as well as to the limited legislative activity during this semester. They stressed the need for longer-term statistics and expressed themselves in favour of a continuation of the Presidency's pilot project, if need be, with certain adjustments.

Two delegations (FR and PL) underlined that the disclosure of progress reports should only take place after Coreper's endorsement.

The Chair concluded that continuation of the pilot project (or continuation in an adjusted version) was now in the hands of the future Presidencies.

**c) Document status of digital communication (SMS, What's app, Messenger etc.)**

After a short introduction by the Chair, the Council Legal Service (CLS) representative explained in detail the suggested approach (the same adopted in confirmatory application 09/c/01/19 - doc. 8/1/19 REV 1) for the forthcoming reply in a new similar case (confirmatory application 39/c/01/19 - doc. 14580/19).

In the absence of delegations' objections, the Chair concluded that the proposed approach was approved and that services would finalise the reply for the latter confirmatory which would subsequently require adoption by written procedure.

- **Complaint 640/2019/TE - European Ombudsman's Recommendation (transparency of the Council's decision-making process - annual adoption of the Council Regulation fixing TACs of fish species)**
