Transparency and Openness

As the European Union's policies ultimately shape many aspects of the life of more than 500 million citizens, it is crucial that EU decisions be taken as openly and as closely as possible to them. For that reason, people need to be able to access clear information on how and why European legislation is adopted. This publication gives an overview of openness and transparency in the European Council and the Council of the European Union and provides easy access to a variety of information sources.
