

Draft
Regulation of the European Parliament and of the Council establishing
the Neighbourhood, Development and International Cooperation Instrument
(NDICI) *

CLUSTER 2: Programming and geographic, thematic and rapid response actions & annexes

- Version of 4 June -

Annex II – Geographic programmes

- Annex III – Thematic programmes
- Annex IV – Rapid response actions
(discussions on annexes II-IV thematically organised - human rights, CSOs, peace and security, global challenges, crisis response, humanitarian-development nexus, foreign policy needs and priorities)
- Articles 8 and 9 – CBDSD (to be updated after trilogue based on agreement in the CBDSD package)
- Article 10 – General programming approach
- Article 11 – Programming principles for geographic programmes

Lines in **dark green** are provisionally closed.

Lines in **light green** are provisionally closed, pending agreement on parts of them related to issues outside this cluster.

The proposed Regulation is part of the package of proposals linked to the MFF 2021-2027 and therefore dependent on the outcome of the horizontal negotiations. Pending these, the reference amounts in Article 6 are put within square brackets. Other provisions of the draft NDICI Regulation appear in square brackets due to their inclusion in the draft Negotiating Box set out in ST 10010/19. Moreover, other provisions have been bracketed and the discussions on them are ongoing. All provisions which appear between square brackets are excluded from the Council negotiating mandate at this stage. Provisions related to the participation of non-EU countries have not been amended due to the horizontal nature of such provisions.

Parts in grey are not discussed under this cluster, either because they are not part of the Council's partial mandate for negotiations or because they are part of another cluster. In both cases, they will be discussed at a later stage.

Parts in yellow are not agreed yet but an agreement could be reached at technical level.

Parts in red are not agreed and should be discussed during the Trilogue.

The possible compromises on local authorities are embedded in following lines: Possible recital 26 bis, Cluster 1 - line 149 bis, Cluster 2 - lines 15, 16, 17, 27, 31, 35, 37, 52, 53, 59, 60, 61, 69, 84, 89, 106, 137 and 200

CL:
General caveat: all possible compromises related to local authorities will be valid only if EP agrees not to set a dedicated thematic LA programme.

EP: General caveat: the compromises and modifications on LAs made at technical level are seen as working towards a possible compromise at political level. For this, the EP maintains its position of envisioning a dedicated CSO-LAs programme

Possible recital 26 bis:

Local authorities embrace a large variety of sub-national levels and branches of government, including municipalities, communities, districts, counties, provinces, regions and their associations. In line with the European Consensus on Development, the Union should foster close consultation and association of local authorities, as well as their participation in contributing to sustainable development and to the implementation of the sustainable development goals at local level, in particular regarding democracy, the rule of law, fundamental freedoms and human rights, social justice and as providers of basic social services. The Union should recognise the multiple roles played by local authorities as promoters of a territorial approach to local development, including decentralisation processes, participation, and accountability. The Union should further enhance its support for local authorities' capacity building in order to strengthen their voice in the sustainable development process and advance political, social and economic dialogue, as well as promote decentralised cooperation.
