The non-disclosed part contains detailed information regarding the modus operandi of law enforcement officials performing border control [and/or coast guard duties]. Disclosing such information would expose the working methods applied in ongoing and future operations, thus obstructing their effectiveness in prevention of cross-border crime and unauthorized border crossings. In consequence, it would undermine the protection of the public interest as regards public security and thus, cannot be disclosed pursuant to Article 4(1)(a) first indent of Regulation (EC) No 1049/2001.

The non-disclosed part contains detailed information related to reporting tools and methods used by law enforcement officials to conduct border control tasks and counter criminal activities. Its disclosure would jeopardize the implementation of ongoing and future operations, and thus facilitate irregular migration and trafficking in human beings as the effectiveness of law enforcement measures would be significantly reduced. As disclosing this information would undermine the protection of the public interest as regards public security, this part is not disclosed pursuant to Article 4(1)(a) first indent of Regulation (EC) No 1049/2001.

The non-disclosed parts refer to details of the operational area and cannot be released. As ongoing operations tend to cover similar operational areas as the operations conducted in preceding years, disclosing details of previous operational areas would be tantamount to disclosing the current state of play. This would provide smuggling and other criminal networks with intelligence, enabling them to change their modus operandi, which would ultimately put the life of migrants in danger. Consequently, the course of ongoing and future operations of similar nature would be hampered by depriving the operations of any strategy and element of surprise, ultimately defeating their purpose to counter and prevent cross-border crime and unauthorized border crossings. In this light, the disclosure of documents containing such information would undermine the protection of the public interest as regards public security within the meaning of Article 4(1)(a) first indent of Regulation (EC) No 1049/2001 .
