

The non-disclosed part contains personal data, in particular the names of individuals. The disclosure would undermine the protection of privacy and the integrity of the individual, in particular in accordance with European Union legislation regarding the protection of personal data and therefore has to be precluded pursuant to Article 4(1)(b) of Regulation (EC) No 1049/2001 .

The non-disclosed part contains detailed information on the means of communication used by law enforcement officials. The disclosure of this information would put law enforcement officials' work in jeopardy and harm the course of future and ongoing operations aimed at curtailing the activities of organized criminal networks involved in the smuggling and migrants and trafficking in human beings. As the disclosure of such pieces of information would undermine the protection of the public interest as regards public security, it must therefore be refused as laid down in Article 4(1)(a) first indent of Regulation (EC) No 1049/2001 .

The non-disclosed parts contain information regarding the technical equipment deployed in the operational area by Frontex and Member States. Disclosing such information would be tantamount to disclosing the exact type and capabilities of the equipment and would enable third parties, e.g. by combining this information with other sources, to draw conclusions regarding usual positions and movement patterns. This would open way for abuse, as numbers and types of equipment used in previous operations are indicative of similar numbers and types for succeeding years. Releasing such information would thus benefit criminal networks, enabling them to change their modus operandi and, consequently, result in hampering the course of ongoing and future operations of a similar nature. This would ultimately obstruct the purpose of such operations: to counter and prevent cross-border crime and unauthorized border crossings. In this light, the disclosure of information regarding the technical equipment deployed would undermine the protection of the public interest as regards public security in the sense of Article 4(1)(a) first indent of Regulation (EC) No 1049/2001.
