Importance: High

Dear colleagues,

Sorry for bothering you again, but we need to further consult you on the attached training matrix report of 2016 and 2017.

In fact, such annexes are part of the Final reports and so they need to be shared with the requestor or – if not – we need to receive the justification.

Please note that both annexes are marked “Restricted use”, but for sure CEPOL could eventually justify the reason.

It is important to highlight that the request comes from the same applicant to which last year we didn’t disclose the training matrix 2016. However, at that time we used the justification below:

Please note however that after having consulted the relevant third party pursuant to Article 4(4) of Regulation (EC) No 1049/2001 of 30 May 2001 it has been assessed that some limited parts of the documents you have applied for fall under an exception to public access to documents as stipulated in the aforementioned Regulation and have therefore been blanked out. The non-disclosed text contains information intended for internal communication and documentation of work in progress of the third party. In this light, the disclosure of such information would undermine the third party decision-making process in the sense of Article 4(3) of Regulation (EC) No 1049/2001. The non-disclosed text contains as well personal data, in particular the names of individuals. Its disclosure would affect the privacy and integrity of the individuals. Therefore, its disclosure is precluded pursuant to the exception laid down in Article 4(1)(b) of Regulation (EC) No 1049/2001.

It is important to see if this time we can use the same justification of a “work in progress” document as last year.

In view of the above, we kindly ask you if those two annexes can now be shared, as they are no longer part of the Final report (training matrix is missing from the final report 2018) or not.

As we will request to extend the deadline for providing the documents to the requestor, we need your feedback by 23 April eob.

Thank you very much for your support.
