Details

Information/allegations	<p>On 07/09/2018 the Text Removed - Human Resources in the Text Removed - Reporting Tools received information by passing drivers about a traffic accident (a truck with FYROM number plates crushed into a GRC registered vehicle). Both vehicles were on the direction towards Thessaloniki in Egnatia Highway and according to the statements of the truck driver (FYROM national) the GRC registered vehicle had broken down and stopped in Egnatia Highway having no lights. Five (5) persons (4 male, 1 female) were on board in the GRC registered vehicle while the driver (facilitator) escaped and was not detected after the crush. Four (4) of them were transported to Alexandroupolis Hospital in order to receive the proper medical treatment, and one (1) was transported to the</p>
-------------------------	---

	<p>hospital in Komotini, seriously injured. All of them remain hospitalized. Four (4) of them are AFG nationals and one (1) is PAK national. No travel documents were found. All of them have been apprehended for illegal entry from BCU Text removed - Operational Area. The investigation is still ongoing.</p>
Measures/actions taken	<p>All the persons remain hospitalized (4 in Alexandroupolis hospital, 1 in Komotini hospital) in order to receive the proper medical treatment.</p>
Assessment	<p>UPDATED INFORMATION (14.9.2018): Three (3) persons remain hospitalized in Alexandroupolis' Hospital, one (1) seriously injured is under intensive care and the other two (2) are slightly injured and soon are going to be out of the hospital.</p>

Details

Information/allegations	In the early morning hours the one of the Text Removed - Technical Equipment Crew Members was transported to the hospital in Samos due to the following symptoms: vomiting of the blood, havy headache and dizziness. Initial examination gave an assumption that it might be caused by the overdosed pain killer and aspirine pills.
Measures/actions taken	The Text Removed - Human Resources was left in the hospital for further examination and observation. Text Removed - Reporting Tools has been informed. 29.07.2018 Today after the second blood transfusion the medical status of the

	crewmember is significantly improved. In the next days, further investigation will reveal the real cause and decide if the patient can safely travel Text Removed - Reporting Tools. For the moment Text Removed - Human Resources crewmember will remain hospitalized continuing the prescribed treatment.
Assessment	
Final outcome	01.08.2018 The results of the investigations did not reveal any other problems and the incident has been caused by the ingestion of Aspirin. Medical protocol requires that the patient should stay more time (usually 2 days) in the hospital until some indicators are verified before he is able to travel back home safely.
