Main issues discussed

Call with AXA, 30 October 2020

Meeting held at the request of AXA. Main topic was revision of the Non-Financial Reporting Directive.

AXA shared its views and support to the revision of the NFRD and the preparatory work on the field of non-financial standards that EFRAG has initiated. This work is of utmost importance to companies in AXA's sector, which are both prepares and users of non-financial information. As the latter, AXA finds that comparable information from the real economy is key to enable them comply with their new obligations under the SFDR and the TR.

Commission staff shared the current state of play of the revision of the directive, gave an overview of the legislative process, and signalled the main aspects that are being considered in the revision.
