

# Way forward from the 15<sup>th</sup> High-level Meeting of the EU-OPEC Energy Dialogue

- Both parties expressed a desire to **build upon the momentum of this discussion**, and **maintain regular Energy Dialogue meetings**, both at the technical and high levels. Areas of mutual interest are:
  - Sharing data and **views on energy & oil market** developments;
  - Discussion on **long-term energy outlooks** and relevant energy policies
  - Discussion on **specific areas**: energy efficiency, hydrogen, methane emissions, stimulating investment, Carbon Capture, Utilization & Storage (CCUS), Circular Carbon Economy (CCE)
- It is very much hoped that the next meetings can be held in person **in Brussels**
