

German LNG Terminal

Project Presentation
Berlin, 12 February 2019

Experience, expertise, commitment: German LNG Terminal for Brunsbuettel

gasunie

- Gas and pipeline expertise
- Gas infrastructure operator in the Netherlands and northern Germany

Oiltanking

- Excellent performance in Germany
- Gas storage expertise
- World leading terminal operator for many years

Vopak

- Expertise in gas and LNG storage and handling
- World leading terminal operator for many years
- Maritime expertise

**German LNG
Terminal**

Why Brunsbuettel?

- Close to Germany's biggest sea port: attractive bunker potential only 3h shipping time away
- Greater Hamburg Metropolitan Area
- In close proximity to industrial customers (ChemCoast Park)
- Direct access to Scandinavia and the Baltic region via the Kiel Canal
- Support from the Schleswig-Holstein federal state government, local municipalities and Brunsbuettel Ports

German LNG Terminal: services

German LNG Terminal as a combined terminal

Loading and unloading of LNG

Temporary LNG storage

Regasification of LNG and release of natural gas to the German gas pipeline network

LNG distribution: tanker lorry, LNG carriers and barges, rail car
