REMARKS:

The Commission would like to inform of the upcoming EU - Canada Sanitary and Phytosanitary SPS Joint Management Committee (SPS JMC) scheduled from 25-27 October 2022 (3 short sessions) via hybrid meetings, with in-persons meetings in Ottawa, Canada and possibility to connect via videoconference.

* This document is only for use within the European institutions and Member States' public administrations:

- Distribution on a need to know basis;
- Not for publication;
- All recipients should be aware of the strict application of the 'need to know';
- Not to be distributed or published outside the EU institutions and Member States' public administrations;
- Full handling instructions <https://europa.eu/db43PX>.

The final agenda with annotations, including the EU positions, is annexed to this note. The agenda takes on board the input received from several Member States.

Furthermore, based on the names received from Member States, connection details on the meeting will be shared with the participants of the meeting.

Member States are also invited to **update by 31 October 2022**, the overview table (SPS matrix) on SPS market access applications to Canada, this table is available in the SPS section of the Market Access Database (MADB). The information in the SPS matrix is important as it is used to further follow-up these applications with Canada. Market access applications of EU Member States not uploaded in the SPS matrix will not be followed-up by the Commission with Canada. The Commission would like to highlight the importance of keeping this information updated as Canada has received access to the *Collaborative space* of the MADB and consequently has received access to *inter alia* the information of the SPS matrices for Canada.

The agenda as well as the outcome of the fifth SPS Joint Management Committee will be made publicly available on following Commission website:
