Dear [REDACTED],
Thank you for the opportunity to speak with you on Friday. It was a great pleasure to share data and exchange thoughts with you.

As promised, please find the Supplement to the [REDACTED] 2018 paper on fluoropolymers. Also attached is the publication on PTFE incineration. Please let me know if you have any questions on either of these attachments.

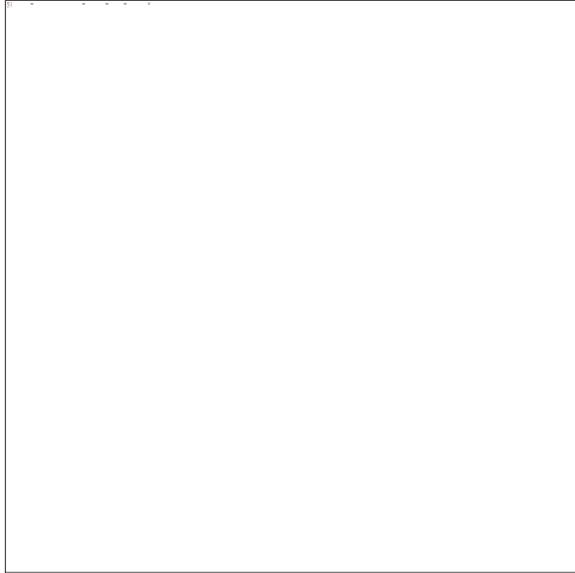

I have also attached my poster from the Society of Toxicology and Chemistry's Focused Topic Meeting on PFAS in North Carolina this summer, and from the SETAC-North America meeting in Toronto. I hope these are of interest as well.

I hope that we will have opportunities for data exchange and dialogue in the future as I found our time together to be most interesting and informative.

Best Regards,

[REDACTED]
